

Diamond Wire Saw

Stone Wire (Plastic)

Features: Flexible and unlimited to block size with long life and high efficiency in stone quarrying, block shaping and profile processing.

Applications: Marble and Granite

Machinery: Wire Saw Machines

Specifications:

Bead Size(mm)	Wire Material	Application	Bead No./M
9.0	Rubber	Granite	38
10.5	Rubber	Granite	40
11.0	Rubber	Granite	40
9.0	Rubber	Marble	38
10.5	Rubber	Marble	30
11.0	Rubber	Marble	30
12.0	Rubber	Marble	30
10.5	Spring	Marble	25
11.0	Spring	Marble	25

Concrete Wire (Rubber)

Features: Excellent performance in cutting reinforced concrete. Rubber over spring makes the wire stable and flexible.

Applications: Heavily reinforced concrete with medium to hard aggregates.

Machinery: Wire saw Machines

Specifications:

Size(mm)	Wire Material	Application	Bead No./M
9.0	Rubber	Reinforced concrete	38
10.5	Rubber	Reinforced concrete	40
11.0	Rubber	Reinforced concrete	40
9.0	Rubber	Reinforced concrete	38
10.5	Rubber	Reinforced concrete	30
11.0	Rubber	Reinforced concrete	30
12.0	Rubber	Reinforced concrete	30
10.5	Spring	Reinforced concrete	25
11.0	Spring	Reinforced concrete	25
