

QWD Diamond Series

PRODUCT APPLICATIONS

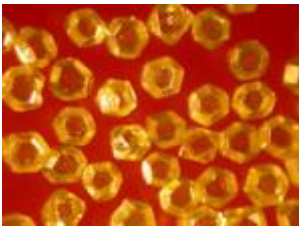

QWD90,QWD80

Shape is mainly cubo-octahedron and complete with higher strength, higher toughness and wear resistance.

Applied to grinding and cutting super-hard materials like rock, reinforced concrete etc.

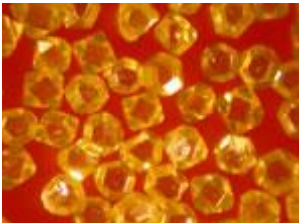

QWD70

Shape is mainly cubo-octahedron and complete with medium strength, higher toughness.

It is ideal abrasive for processing concrete, granite and glass block.

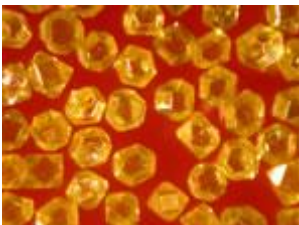

QWD60,QWD50

Shape is mainly cubo-octahedron and complete with medium strength.

Applied to making resin bond or metal bond tools to cut, drill, grind and polish non-ferrous materials like refractory, concrete, glass, and marble etc.

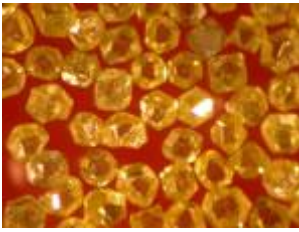

QWD40

Complete and regular shape.

Applied to making metal bond tools for processing common stone and construction materials.

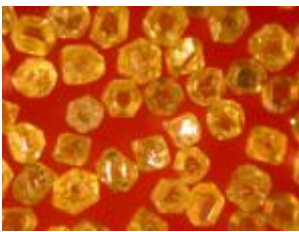

QWD30

Crystal shape is regular with lower strength.

Applied to making metal bond tools for processing common stone, glass and concrete etc.

QWD20,QWD10

Regular shape.

Applied to making resin bond or metal bond tools to process carbide and as well as grinding and polishing common concrete products.

Available Sizes for QWD Diamond Series

	QWD10	QWD20	QWD30	QWD40	QWD50	QWD60	QWD70	QWD80	QWD90	QWD95
