

## QFD Diamond Series – Fine Grain

### PRODUCT APPLICATIONS

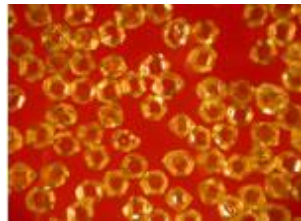

#### QFD50

80-400 fine grain diamond, complete cubo-octahedron crystals with high strength.

Applied to manufacturing electroplated tools, grinding wheel, abrasive wheel to polish and curve stone and process car glass, high grade furniture, ceramic, alloy, magnetic materials etc.

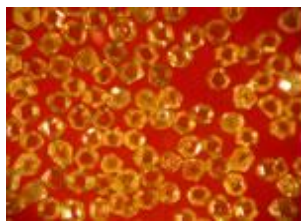

#### QFD40

80-400 fine grain diamond, complete cubo-octahedron crystals with high strength.

Applied to manufacturing electroplated tools, grinding wheel, abrasive wheel to polish and curve stone and process car glass, furniture, ceramic, carbide, magnetic materials etc.

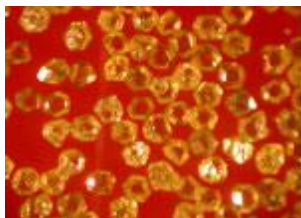

#### QFD30

80-400 fine grain diamond, shape is similar in size.

Applied to manufacturing grinding wheel, abrasive wheel, etc and processing carbide, ceramic, magnetic materials etc.

#### QFD20

80-400 fine grain diamonds applied to manufacturing grinding wheel, abrasive wheel, etc and processing cemented carbide, ceramics, magnetic materials and glass.
